SANIYA SARATKAR

DATA ANALYST | BUSINESS ANALYST | AI & DATA SCIENCE GRADUATE

Nagpur, Maharashtra, India • +91-7276253304 • saniyasaratkar1312@gmail.com • linkedin.com/in/saniya-saratkar-1624ba250 • github.com/Saniya1312S

Professional Summary: Early-career B.Tech graduate in Artificial Intelligence and Data Science (AIHER / DMIHER, CGPA: 8.35/10) with verified internship and research exposure at **Deeptimaan Systems, IIT Kharagpur, ISRO NRSC, and UC Berkeley** ($8,500 AI Scholar). Specializes in the end-to-end data lifecycle: exploratory data analysis, business intelligence, SQL/database reporting, KPI development, and predictive modeling for business and operational decision-making.

CORE SKILLS & TECHNICAL EXPERTISE

Data & Business Analytics: Business Analysis, KPI Development, Exploratory Data Analysis (EDA), Data Cleaning, Trend Analysis, Root Cause Analysis, Statistical Analysis, Data Storytelling, Process Automation, User Segmentation.
Business Intelligence & Tools: Power BI, DAX, Power Query, Tableau, Microsoft Excel (VLOOKUP, Pivot, Advanced Modeling), Google Sheets, Jupyter Notebook, n8n, Git, Docker.
Programming & Databases: Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn), SQL, MySQL, DuckDB, Relational Data Modeling, REST APIs.

INTERNSHIP & RESEARCH EXPERIENCE

Deeptimaan System — *Data Analyst / Data Science Intern* Feb 2025 - Jan 2026 | Hyderabad, India

- Analysed 1M+ customer & operational records using Python (Pandas) and SQL; performed user segmentation and trend discovery.
- Engineered automated validation and reporting workflows utilizing n8n and Docker, **reducing manual reporting effort by 21.25%**.

IIT Kharagpur — *Research Analyst Intern* Mar 2025 - Aug 2025 | Kharagpur, India

- Analysed 14+ years of longitudinal ESG and financial metrics; applied ARIMA/SARIMA models and statistical regression testing.
- Prepared publication-ready data visualizations, executive summaries, and data-quality audit reports supporting journal review.

ISRO - National Remote Sensing Centre (NRSC) — *Project Intern* May 2025 - Oct 2025 | Hyderabad, India

- Evaluated multi-terabyte satellite imagery (Google Earth Engine & Copernicus) to monitor geospatial and environmental patterns.
- Built an interactive prototype visualizing regional climate shifts; presented analytical findings directly to senior research scientists.

UC Berkeley (Applied AI Intern, *$8,500 Scholarship Recipient*, Jul 2025) & Ignite Center (AI Mentor, Dec 2025 - Apr 2026) USA / Remote

- Researched applied LLM evaluation workflows, prompt engineering, and mentored university student teams on ESG data science.

FEATURED ANALYTICS & APPLIED DATA PROJECTS

Olist E-Commerce Marketing Funnel & Lead Conversion Analysis | *MySQL, Python, Excel, Power BI*
• Conducted end-to-end sales funnel analysis across 8,000 marketing-qualified leads (MQLs) and 842 closed deals (10.5% conversion rate).
• Discovered that Search was the highest-impact acquisition channel contributing **55.3% of all closed deals**; built an interactive Power BI dashboard tracking lead-to-close velocity and CAC efficiency.

Indian Railway Operational Delay Analytics (Simulated Operations) | *Python, DuckDB, Pandas, Power BI*
• Queried 1.5M simulated journey records to identify operational bottlenecks across regional train zones.
• Diagnosed major systemic delay disparities: 71.89% overall delay rate, surging to **89.32% in Eastern Railway** and **92.82% during monsoon**, compared to 50.22% in South Western Railway.

Credit Card Fraud & Transaction Risk Analysis | *Python, SQL, Power BI, DAX Modeling*
• Analyzed 283,726 financial transactions identifying 473 fraud cases (0.167% volume rate, 0.233% financial value loss rate).
• Developed interactive risk-monitoring dashboards with DAX metrics for anomaly detection and prioritized alert thresholds.

SignAssistant – Indian Sign Language Translation Engine | *Python, MediaPipe, ML/DL, Streamlit*
• Built real-time gesture-to-speech system with 226-dim geometric invariants, achieving 99.44% ML / 99.61% DL accuracy and 31ms edge latency.

EDUCATION

B.Tech in Artificial Intelligence & Data Science
Adani Institute of Higher Education & Research (AIHER / DMIHER), Nagpur
Duration: 2022 - 2026 | **CGPA:** 8.35 / 10.0

CERTIFICATIONS & ACHIEVEMENTS

- **Google Data Analytics Professional Certificate**
- **UC Berkeley $8,500 Merit AI Scholarship** Recipient
- **20+ Research Publications** indexed on Google Scholar
- **Runner-up:** Medico Engino Hackathon (Healthcare AI)
- **Vice President:** Student Council (Organized 50+ events)
